

OLYMPIC ART PARK

“Olympic Art Park” project is an attempt to transform the public spaces of the Olympic Village into a park of contemporary art. In the first part of the project, the artworks consist only of their labels that are placed at positions indicated by the artists. These labels include: artists’ full name as well as each artwork’s title, year of conception, technique, materials and dimensions. The second part of the project refers to the realization of the artworks without that being of artists’ or curators’ responsibility. With an open call, all the inhabitants of the Olympic Village were invited to submit an artwork using their real names or any artistic pseudonyms.

Application period: 01.04.2018–30.04.2018
